GitHub: github.com/angeetha06-art

CAREER OBJECTIVE

Motivated B.Tech. Artificial Intelligence and Data Science student with foundational skills in Python, SQL, Excel, Power BI and Tableau. Seeking an opportunity in Data Analytics, Artificial Intelligence or related fields where I can apply my analytical thinking and continuously develop practical skills

EDUCATION

B.Tech. in Artificial Intelligence & Data Science — Arunachala College of Engineering for Women 2024–2028

CGPA: 8.50/10 — University: Anna University, Chennai

HSC / Class XII — The Hope Matriculation Higher Secondary School 2024 — 78.50%

SSLC / Class X — The Hope Matriculation Higher Secondary School 2022 — 84.80%

TECHNICAL SKILLS

Programming Languages: Python, SQL

Web / Software / Tools: Microsoft Excel, Power BI, Tableau, Tableau Public, GitHub, Kaggle

Databases: SQL

Core Engineering Skills: Data Cleaning, Exploratory Data Analysis, KPI Analysis, Data Visualization, Machine Learning Fundamentals, Artificial Intelligence Fundamentals, Generative AI Fundamentals

PROJECTS

Sales Analytics and Manager Dashboard — Excel / Data Analytics

- Developed a sales analytics project involving data cleaning, KPI analysis, sales and profit analysis, customer analysis, and regional performance analysis.
- Created a manager-focused dashboard to present key business insights and support data-driven decision-making.

Intelligent Surveillance System for Wildlife Protection — AI / Data Science

- Developing an AI-based intelligent surveillance system for real-time wildlife monitoring and suspicious activity detection.
- Focuses on automated monitoring and supporting wildlife protection through Artificial Intelligence.

Intelligent Pesticide Sprinkling System Determined by the Infection Level of the Plant — AI / Smart Agriculture

- Designed a system to automatically detect the infection level of plants and support intelligent pesticide spraying.
- Focuses on infection-level analysis, smart decision-making, and targeted pesticide application.

MRJ SAFEVENT AI — AI-Based Gas Safety System

- Developed a safety-oriented system designed to monitor gas cylinders and identify potential gas leakage conditions.
- Supports early detection and preventive safety control mechanisms to help reduce risks associated with gas leakage.

INTERNSHIPS / INDUSTRIAL TRAINING

Brassy Academy — Artificial Intelligence Internship

(15 days) 15/08/2026 – 30/08/2026

- Completed Artificial Intelligence training with exposure to AI concepts, Python, and practical applications.

Capstart — GenAI Training Program

6 Weeks

- Completed Generative AI training and gained exposure to Generative AI concepts and practical applications.

CERTIFICATIONS & COURSES

- Data Analytics Job Simulation — **Deloitte**.
- Data Analytics Course (30 Days) — **NoviTech**
- Artificial Intelligence Course (30 Days) — **NoviTech**
- UI/UX Design using Figma 1.0 — **Infosmite**
- Gen-AI Buildathon & Training Program — **Capstart Genesis 2.0**
- Resume Building Bootcamp — **LetsUpgrade**

ACHIEVEMENTS

- MRJ SAFEVENT AI — Patent Application No. 202641012484.
- Participated in Smart India Hackathon with the project “Intelligent Pesticide Sprinkling System Determined by the Infection Level of the Plant.”
- Participated in a Paper Presentation as part of a technical academic activity.

POSITIONS OF RESPONSIBILITY & ACTIVITIES

- Participated in technical events, symposium activities, and academic programs related to Artificial Intelligence and Data Science.

SOFT SKILLS

Communication — Teamwork — Problem Solving — Leadership — Time Management

PERSONAL DETAILS

Date of Birth: 06/06/2006

Languages Known: Tamil, English, Hindi

Address: Cheranmahadevi, Tirunelveli, Tamil Nadu

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.

Place: Cheranmahadevi

Date: September 5, 2026
